

**United States Court of Appeals
for the D.C. Circuit**

***United States v. Microsoft Corporation
Nos. 00-5212, et al.***

**NOTICE CONCERNING LIVE AUDIO-FEEDS OF ORAL ARGUMENTS;
AVAILABILITY OF ON-SITE MULT-BOX CONNECTIONS FOR THE PRESS;
AND INTERNET STREAMING FOR WEB PROVIDERS**

Due to widespread public interest in this case and the limited seating, live audio-feeds of the arguments will be made available to the news media through the Network Pool. On February 26 and 27, the Network Pool will provide live, audio-only feeds of the arguments beginning at 9:30 a.m. These audio feeds will be distributed to broadcast journalists via the Network T.V. Pool and ABC News Radio's WAND system.

In addition, during oral arguments, a number of on-site mult-box hookups will be available in the Press Room located on the fourth floor of the E. Barrett Prettyman United States Courthouse and in Courtroom 18 on the sixth floor of the Courthouse. *(Please note that mult-box hookups will not be available outside the Courthouse.)*

The Network Pool is unable to make audio cassettes available to the press or public. However, any member of the press wishing to obtain a mult-box hookup in the Courthouse should report to room 5409 of the Clerk's Office on Thursday, February 22, or Friday, February 23, between the hours of 9:00 a.m. and 4:00 p.m., to obtain a pass allowing them to bring a recording device into the Courthouse. Those seeking a pass must present legitimate press credentials. *These passes, which must be presented upon entering the Courthouse, will allow press to bring recording devices into the Courthouse only for the purpose of recording the oral arguments using the mult-boxes in the Press Room or Courtroom 18.* Recording devices may not be used in any other part of the Courthouse and are subject to confiscation by the United States Marshal's Service if used for any purpose other than a mult-box hookup.

For additional information regarding live, audio-only broadcast feeds, call Rusty Lutz at ABC News Radio at (202) 222-7061.

Finally, the audio portion of the arguments will be streamed live on the Internet beginning each day at 9:30 a.m. on a number of web sites, including:

**www.ABCNEWS.com
www.c-span.org**

Archival recordings will also be available, on demand, from www.ABCNEWS.com and www.c-span.org for a period of time following the argument. Any site content beyond the oral arguments themselves is the responsibility of individual web providers and is not endorsed by the court.

Web sites interested in linking directly to the streaming page of ABCNEWS.com can do so, beginning Monday, February 12, by linking to:
